

Those who fail to learn from history.... Are condemned to repeat it....

Dear Customers,

Strange mergers are happening, which make me wonder, laugh and feel extremely concerned for end-users. A company, who has no history of Web Inspection, enters into an agreement with another company whose reputation for after-sales service is highly questionable!

The so called alliance is so absurd, that neither of the company's Sales and Service force is clear who is going to be responsible for which product.

The poor customer will be left in the lurch wondering which of the two companies would be responsible for the service support, etc., after having spent an enormous amount of money buying their products.

Why should a customer invest in such dubious companies. Instead, talk to us at **BST eltromat** which has stood for stability, commitment and quality.

Think again before investing....

JAAGO GRAHAK JAAGO!

Be inspired. Move forward.
