Don't settle for ordinary...
Insist on regi_star 20 for your new press!

- 1 pixel camera allows safe detection of very low contrast marks. e.g. cold seal, metalized ink, lacquer
- Measuring resolution: ± 5 µm & Max web speed upto 1200 m/min.
- Real time live picture display of the register marks
- Considerable reduction in set-up times and waste

Be inspired. Move forward.

regi_star 20 : The Rising Star!

2014 has been an auspicious year for **BST eltromat**. The merger between **BST** & **eltromat** is the biggest highlight of the year, making us the largest company in the world for Web Guiding, Register Control, Video Inspection and Quality Assurance Systems.

The year-end revenue of BST International GmbH, has significantly increased by 15%, whereas eltromat GmbH revenue has increased by 20%. This resulted in the boost of 17.5% in the overall revenue for the company in 2014. We at **BST eltromat India** are also confident to double our revenue FY' 2015-16.

The new generation Inspection System **iPQ Centre** is generating good response and Manikchand Packaging, Constantia Parikh Packaging, Vimlachal Print & Pack, Multi Flex, Manama Packaging have already placed orders with us and few more are in the last stage of finalization.

More and more OEMs in India are switching over to regi_star 20. BST eltromat is emerging as their new and preferred supplier for Registration Controls. OEMs feel that, regi_star 20 is the best performing register control and is now available at highly competitive prices.

Kohli Industries has already standardized **regi_star 20** on all their presses. Kaku Kohli considers regi_star 20 better than most competitive brands he has used till date. He admits that the performance of his press has improved significantly after switching over to regi_star 20.

Our mantra to all our customers placing order for new press:

"Don't settle for ordinary... Insist on regi_star 20 for your new press!"

Be inspired. Move forward.
